10. (Secret - LLM) At the request of [] CA Staff, advised Robert Horner, Chief Investigator, House Internal Security Committee, that after reflection [] apparently has come to the conclusion that the best interest of his wife and child would not be served by his appearance in open session before the Committee and for that reason would request that his testimony be received in executive session when the Committee Counsel, Richard Shultz, sees him on Monday. I told Horner we would appreciate it if the Committee would agree with [] request and recommended that any publication of his testimony be in the pseudonym he uses in his work. Horner said in view of [] change of heart the Committee may determine not to have him appear at all. Horner was completely friendly as usual.

11. (Internal Use Only - LLM) Called Vic Zafra, Bureau of the Budget, on our report on the Ervin bill and learned that he was unaware that the bill had passed the Senate. He asked that he be provided with our report as soon as possible and if we could provide the Bureau with a statement tracing the major developments in connection with this legislation as a refresher. He said we could use classified addenda to the report but that in so doing we should recognize that this may inhibit BOB in farming out our report to obtain the views of other departments and agencies. I told Zafra that we hoped to get our report over no later than the middle of next week. BOB apparently has not received any reports on the bill so far.
